This job gave me the ability to quickly process numbers and work with a variety of customers. At this job I am responsible for checking out customers, making sure to give correct change, and cleaning around the store. This job gave me valuable time management and teamwork skills. It also helped me with my help.

## Volunteer:

As a track team in high school, we would have a yearly volunteer experience. My freshman year we helped with Special Olympics by taking times of finishes for races. My senior year we helped to clean up the school grounds.

## Personal:

My free time is usually spent working-out, primarily running. A lot of my time is also spent learning about computers, working on learning more coding languages, and other personal projects. I achieved a GPA of 3.66 in high school. I received the honor of being a team captain in both cross country and track which really helped with my leadership abilities.
